Subject: Beck Street Permit Application, Staker Parson Companies, Beck Street Quarry,
M/035/019, Salt Lake County, Utah

Dear Mr. Dalley:

Staker Parson's September 8, 2005, submittal of the Beck Street Quarry mining and reclamation plan proposes a mining plan different than the plan the Division has been reviewing since April 2003. The Division has been working with Staker since August 3, 2002 to permit the Beck Street site. The Division believes this current change in direction of the mining and reclamation plan will substantially delay the permitting of this site.

The Division and Staker & Parsons entered into a Transitional Reclamation Contract on January 8, 2004. This contract, allowing operations to continue, expired on January 8, 2005. Subsequent letters, for good cause, from the Division have extended this deadline.

The Division will not review the September 8, 2005 submittal. Please continue refining the original mining and reclamation plan, expediting the completion of the plan we reviewed in August of 2004, as discussed in the attached memo. This plan must be received by January 30, 2006. Further extensions of this deadline will not be granted and mining may be required to cease.

If you have any questions regarding this letter, please contact me at (801) 538-5258.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Regulatory Program
